5-step order fulfilment process

Step 1

Ship your products to any of our warehouse fulfilment centers. We inspect, measure, and process freight in our state of the art warehouse software.

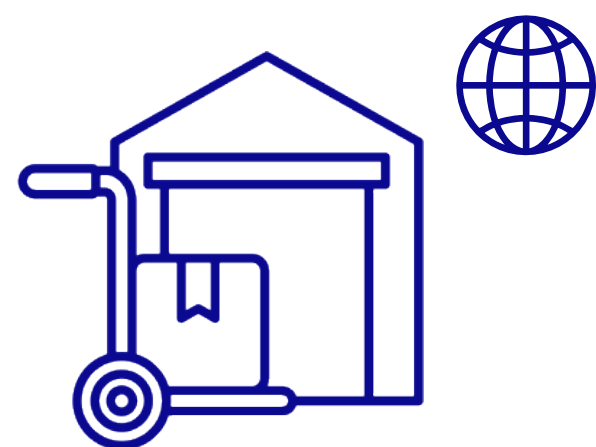

Step 2

Once cargo is process we put in our state of the art storage areas and optimizing space of each item to ensure we are cost efficient.

Step 3

When outbound jobs are placed, our team uses our custom build warehouse software to pick and pack your products with 100% of outbound jobs dispatching same day.

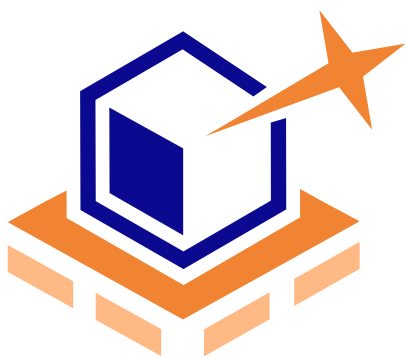

Step 4

We promptly ship orders worldwide as instructed and schedule PU with local carries.

Step 5

All returns come back to us for priority processing. We check for any damages and prepare suitable for resale.
